Very Impressive Software

NEWSLETTER

_____

Hello and welcome to the first issue of our newsletter!

Firstly, we would like take this opportunity to thank you for your continued
support and we look forward to doing more business with you in the years ahead.

We are intending to send out a newsletter on a six monthly basis to keep you up to date with
our new products, information and tips.

_____

The VISion

Our aim here at VIS is to develop software that is smart, easy to use and affordable.

We recently sold our MYOB Exo Business dealership so we could concentrate on achieving this.
Our products range from asset management to purchasing, temporary staff placement and a whole range of
add-ons for MYOB Exo Business.

To view the full range of products we have available, visit www.veryimpressive.co.nz.

Very Impressive Assets

Our flagship product, VI Assets is in use by over 150 sites around NZ and in Australia.
We have two versions available; Standard and Lite. We are currently working on our Professional version which will have
features like unlimited number of books, extra fields, maintenance schedule, expense analysis, document management for
manuals, drawings, video, audio, etc.

The Standard version has been developed from WinFix, the product we launched in 1992. It has multi-company, two
books, hierarchical locations, drag-and-drop asset movement, a fuller list of reports and the ability to add custom reports;
integrates with MYOB Exo Business and AccountRight; can run on a MS Access or SQL Server database.

The Lite version has recently been released as a simple, single book solution that has limited functionality but replaces that
spreadsheet which is often getting unmanageable. It can be integrated with MYOB Accounting and Premier to automatically
pass the journals without the need to key them in. Email xiaomei@veryimpressive.co.nz for more information.

Existing customers...

UPGRADE

WinFix

VIAssets

*FREE VI Assets Upgrade

Customers still using WinFix: Call us now to arrange for an upgrade to the latest version, now
called VIAssets.

Customers already using VIAssets: We will be putting the latest release as it becomes available on
our FTP site for you to download and install when it is convenient for you. You can also opt to have a
disk sent to you.
*Free of charge for those subscribed to our annual maintenance and support agreement

VIAssets SQL version is now available - email xiaomei@veryimpressive.co.nz for more information.

Very Impressive Products

Supermarket E-Invoicing

This tool is an easy to use add-on for the MYOB Exo Business accounting suite which has been designed specifically to support suppliers with supermarket requirements for electronic invoices.

E-invoicing takes the hassle out of manually creating invoices, by providing suppliers with the tools to easily extract invoices from MYOB Exo Finance and converting them into an electronic format.

છ

Purchasing

A web-based product that allows users to enter wish lists that are consolidated into purchase requisitions, have them approved, and have them built into consolidated purchase orders (where appropriate) by the purchasing office.
The advantage of a web-based system is that it can be accessed and used from anywhere in the world, allowing people to approve invoices without having to be in the office.

It also has the ability to capture the purchase invoice and allow it to be authorised electronically.

Postal Address Updater

NZ Post introduced a new policy June last year for bulk mailers to use correct addresses and postcodes when sending mail.
We understand that for many businesses, this can be a real hassle; so we have developed software that can update your postal addresses in Exo Business to conform to the standards of the NZ Post SendRight Address Accuracy Programme.
This will check, validate, and then update your postal addresses overnight.

છ

Importer Tool

This is a tool for importing files into MYOB accounting software as either master records/cards or transaction.

This tool eliminates data re-entry, provides reconciliation/audit reports quickly, saving your business time and money.

It can also be scheduled to run automatically to enable data transfer at the beginning of the work day.

*Currently supports delimited data files and XML. Other file formats can be added on request.

For more information email sales@veryimpressive.co.nz or call us at the office (04) 473 6515

TO RETRIEVE PASSWORD:
PLEASE ANSWER YOUR SECRET
QUESTION, WHICH IS:
"WHAT IS YOUR PASSWORD?"
HA HA HA HAAA!!

We've stayed in business since 1992 because we are committed to ensuring that our customers get the software they need when they need it.

To find out how we can help you achieve your business requirements and goals,
contact Steve Marriott on
(04) 473 6515 or alternatively you can drop him an email at steve@veryimpressive.co.nz.
